

Mounting the multiswitches on DIN rail

Although DIN rail is widely used for easy mounting of huge variety of electrical equipment, it is only rarely supported by SAT-TV distribution components like satellite multiswitches.

EMP-Centauri is now ready to ship all **PROFI CLASS satellite multiswitches with pre-assembled plastic mounting feet for 35 mm DIN rail**. This innovation offers an alternative mounting option to standard fixing method (screws in the corners of the multiswitch).

Mounting the multiswitch to the DIN rail:
